Don't be Fooled! How to Avoid Cybersecurity Tricks & Hoaxes

Moderator
Debbie Gawrylowicz, Director of Business Information Solutions, Information Technology
Brandywine Global Investment Management

Debbie is Director of Business Information Solutions for Brandywine Global Investment Management. In her role, she manages the application development and support, digital transformation, and information management staff and activities for the firm. She has also managed the IT (Information Technology) Infrastructure and related functions for Brandywine. Prior to Brandywine, Debbie held leadership roles in all aspects of IT across multiple verticals, including the financial services industry. Debbie volunteers as a Board member and Education Committee chair for the Fund for Women and Girls, a local organization that leads and unites the community through philanthropy and advocacy to ensure that women and girls have resources and opportunities to thrive.

Debbie holds a B.S. in Industrial Engineering and Operations Research and a Master of Information Systems, both from Virginia Tech. She also holds certifications as a Project Management Professional (PMP), an Agile Certified Practitioner (PMI-ACP), and in Investment Foundations from the CFA Institute.

**Amy Lane, Client Operations &
Implementations Manager**

SEI

Amy Lane is currently SEI Sphere's Client Operations & Implementations Manager. As new clients contract with SEI Sphere for cybersecurity operations, network operations and cloud services, Amy coordinates the overall implementation tasks and timeline. Amy continues to improve the processes and documentation utilized by the various SEI teams to help make the implementations run smoothly. As clients transition into day-to-day support, Amy and the broader Sphere team strive to ensure the clients' requests are executed in a timely manner and any incidents are resolved quickly.

Prior to joining the SEI Sphere team, Amy was responsible for SEI's Disaster Recovery Program. For over 13 years, she managed SEI's Disaster Recovery test exercises and coordinated with the technology teams to enhance their recovery strategies. Amy also worked closely with the Enterprise Risk Management team on the overall Business Continuity Management Program.

Amy started with SEI in 2001 after graduating from Georgia Tech with an Industrial Engineering degree. She has also worked in the SEI Private Banking, Private Wealth Management, and Institutional business groups. In these groups, Amy varied in her responsibilities – Internal Communications, Regulatory Solutions, Technology Director, and Client Service.
